

3D VIRTUAL TOURS

## HOW IS A LOOKING GLASS 3D VIRTUAL TOUR DIFFERENT FROM A TRADITIONAL "VIRTUAL TOUR" OR 360 PANORAMIC PHOTOGRAPHY?

A traditional virtual tour isn't really virtual – it is misleading and frankly, can be a disappointment.

**Typically these are a gallery of stationary, panoramic photos, painstakingly "stitched" together and navigated via some clunky control scheme.**

Although the techniques vary, most traditional tours do not allow the viewer to actually move around within the space. At the very most, traditional tours offer 10 or so individual locations to view a space. Traditional photographers create these tours by using DSLR cameras to capture a space with multiple photos that are then hand stitched to form a panorama which is viewed from a player.

A **Looking Glass 3D Virtual Tour** allows the viewer to explore the space from up to 200 locations seamlessly!! We use an expensive, specialized, high tech 3D camera system consisting of cameras and spatial scanning sensors that, in addition to capturing the space in beautiful, high resolution images, it scans and generates a polygonal mesh. This mesh is used to create a dynamic, 3D model that can be explored online AND in a virtual reality headset such as an Oculus Rift or Samsung Gear!!

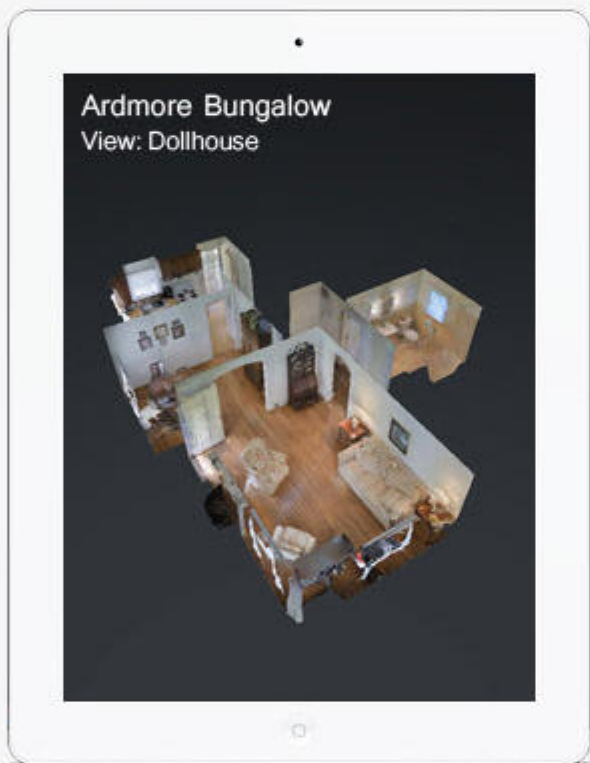

Our showcase provides the ability to navigate intuitively via several viewpoints: first person, birds eye (floor plan) and isometric (the 'doll house'). You can even highlight certain "clickable" features with our annotation tool!! Our software is also supported by Zillow and Facebook – now you can easily place your **Looking Glass 3D Virtual Tour** in your MLS listing or Facebook page.

### LOOKING GLASS CREATES HIGH-QUALITY, IMMERSIVE 3D MODELS OF YOUR SPACE THAT YOU SHARE WITH YOUR AUDIENCE.

As the lens and laser system scans, it captures the colors and contours of a space – calculating dimensions and spatial relationships between objects. There is nothing else like it in the industry. Other laser-based camera systems are cumbersome, expensive and take days to create a 3D model. We can scan a space and have it on the internet in hours!

#### HDR-Quality 3D

*This isn't CGI.* We generate highly realistic, detailed models that combine a 3D mesh with high dynamic range panoramic imagery. Simply beautiful.

- FULL IMMERSIVE EXPERIENCE**  
Move through the interior easily, then zoom out to the "dollhouse" for a 3D isometric view or floorplan for a birds eye view.
- EASY TO NAVIGATE**  
The simple, "game-like" interface lets you move through a space naturally. Fully explore every inch with intuitive controls, keyboard shortcuts, even virtual reality!
- DYNAMIC ALGORITHMS**  
Powerful computer vision algorithms can tackle common obstacles – like a cluttered space or large, empty spaces, or spaces with many windows.
- EASY TO SHARE**  
With a simple link or embed code, your 3D Showcase can be seamlessly included in your Webpages. No downloads or plugins needed.
- NO SOFTWARE REQUIRED**  
No software, no plug ins to install and update. Share with anyone right from your internet browser.
- FAST SCANS**  
LOOKING GLASS provides a powerful way to rapidly scan even the largest properties.
- FLOORPLANS**  
Now anybody can see accurate floorplans, take measurements and capture images from any angle!
- UPGRADE THE RETAIL EXPERIENCE**  
LOOKING GLASS is a key part of the optimal "click and mortar" showroom and commerce experience.

### TRADITIONAL VIRTUAL TOURS VS. LOOKING GLASS 3D VIRTUAL TOURS

Traditional 3D "Virtual" Tours	LOOKING GLASS 3D VIRTUAL TOURS
12 or less points of interest or Tour Locations	Up to 200 points of interest or Tour Locations
Isolated 360 Panoramas - one tour per room	True Virtual Reality - Full Immersion
No stitching from each location	True 3D Polygon Mesh Stitching
Limited to 16 or less photos	High Resolution Cameras capture dozens of images
3+ day post production work required	FAST! 24 hour post production
Distracting Fish-eye Distortion	Realistic Perspectives
	Full Screen
	Mobile Friendly
	✓ Easily embed tours into a website
	✓ Supported by Zillow
	✓ Easily post on Facebook Wall
	✓ Isometric "Doll House" View
	✓ "Floor Plan View"
	✓ Get Accurate Measurements - with measuring tools
	✓ Highlight features with the Annotation Tool
	✓ Client Login Portal
	✓ Download project .obj files for CAD
	✓ Compatible with Virtual Reality
	✓ Impress prospects - there is nothing else like it!
	<a href="#">Schedule a Tour</a>

Looking for a new and exciting medium to present your property, location, product or services?

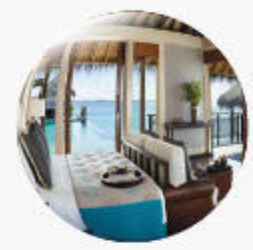

## LOOKING GLASS PROVIDES IMMERSIVE 3D VIRTUAL TOURS AND 360 DEGREE VIDEO CAPTURE SERVICES THROUGHOUT THE SOUTHEAST

LOOKING GLASS combines the latest in bleeding edge scanning and 3D modeling technology to create immersive experiences that can present your products and services in an exciting new format that captures your audiences full attention.

### REAL ESTATE

Homes, Rentals, Commercial, Agents, Buyers, Sellers, FSBO...

### HOSPITALITY

Travel, Hotels, Bed & Breakfast, Inns, Resorts, Cabins, Beach Houses...

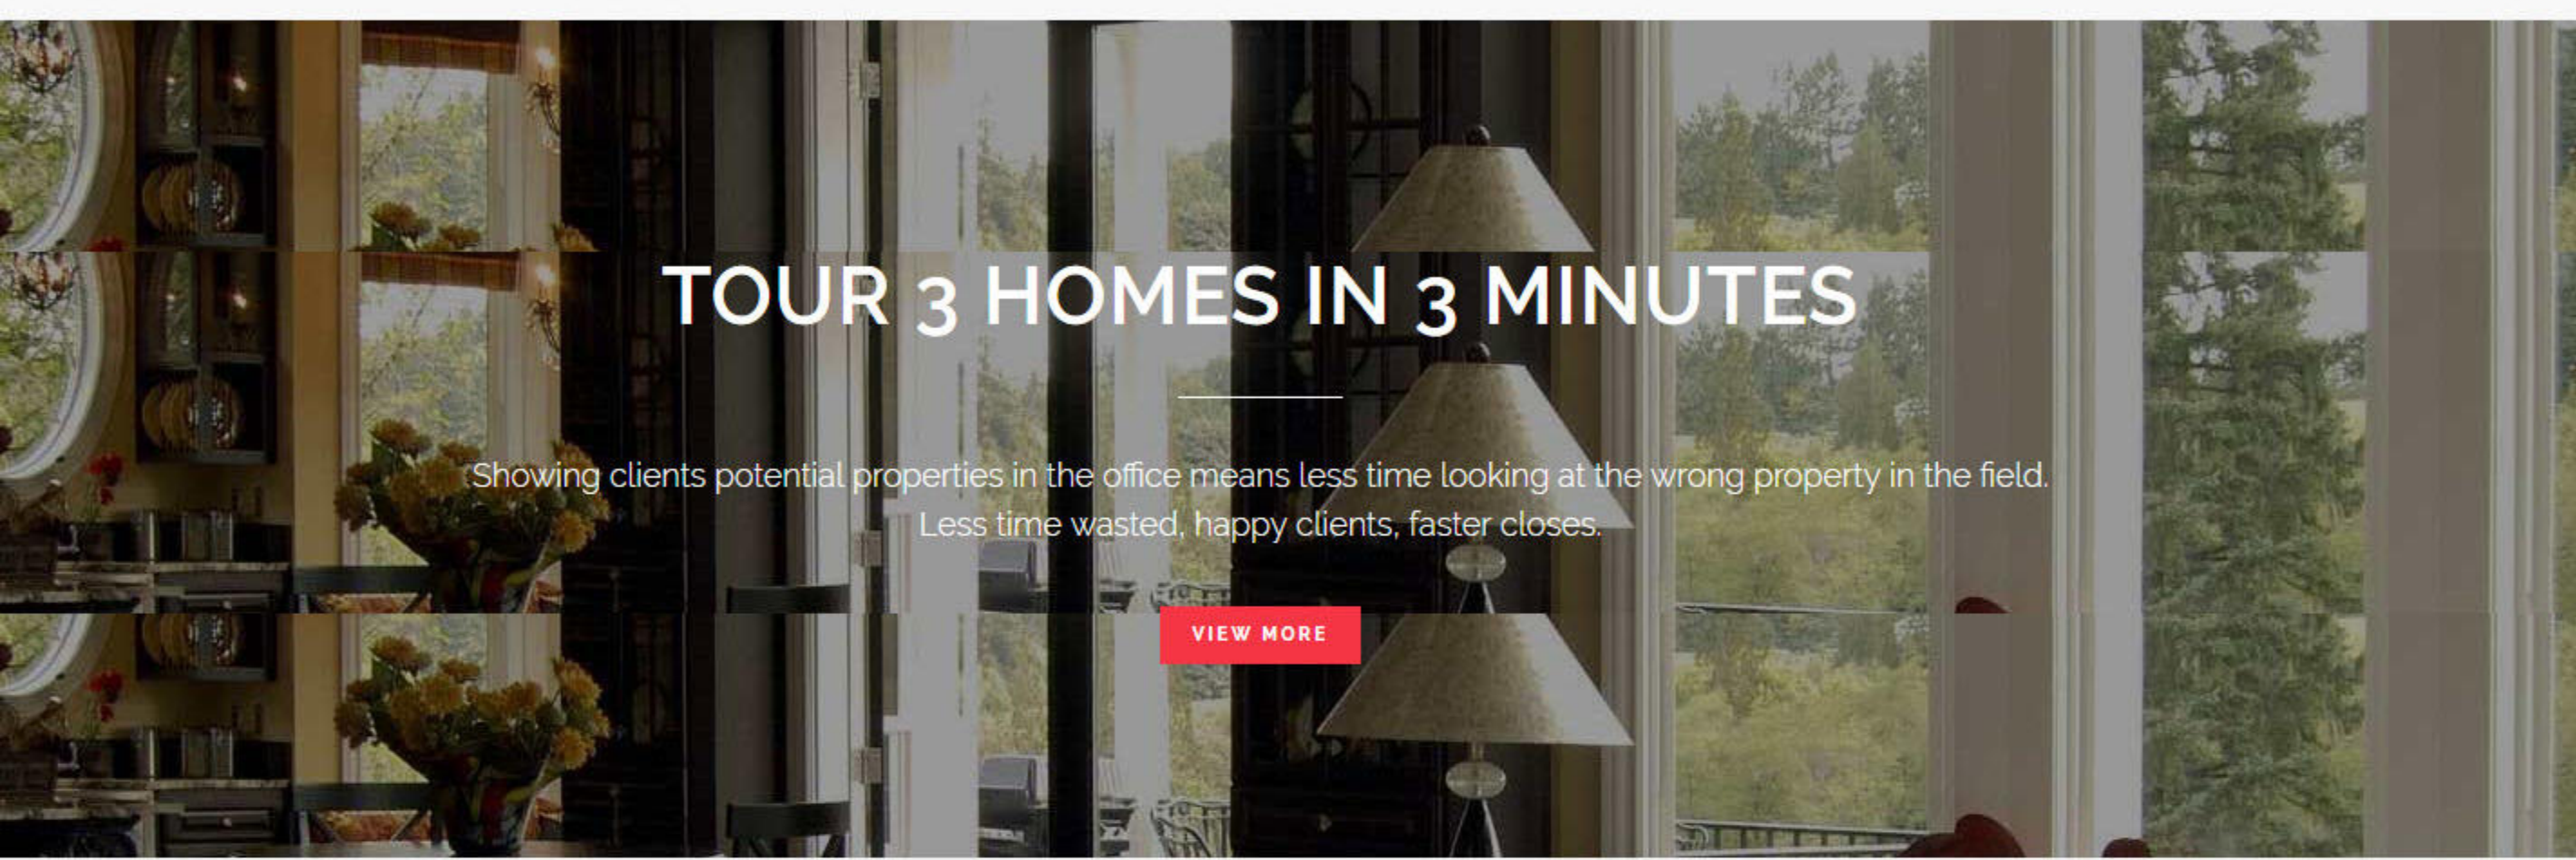

### CONSTRUCTION

Project Managers, Architects, Contractors, Inspectors, Designers...

### ENTERTAINMENT

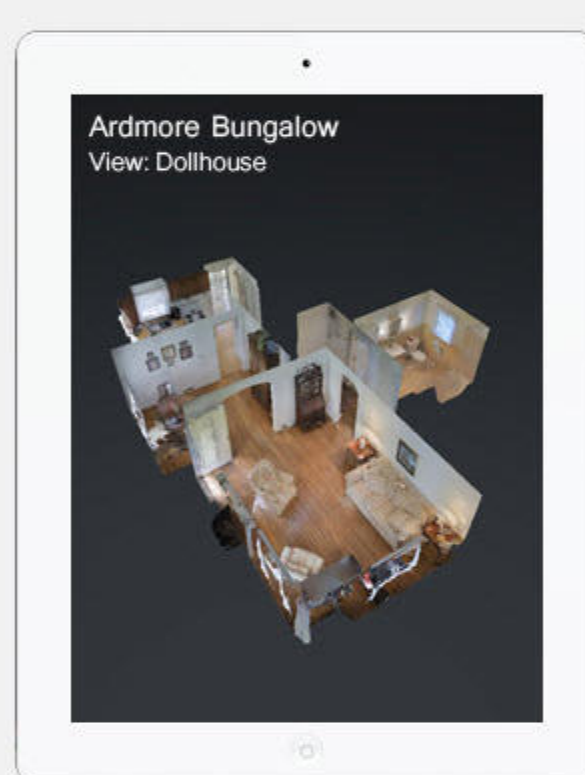

Venues, Restaurants, Stadiums, Museums, Night Clubs...

## TOUR 3 HOMES IN 3 MINUTES

Showing clients potential properties in the office means less time looking at the wrong property in the field. Less time wasted, happy clients, faster closes.

VIEW MORE

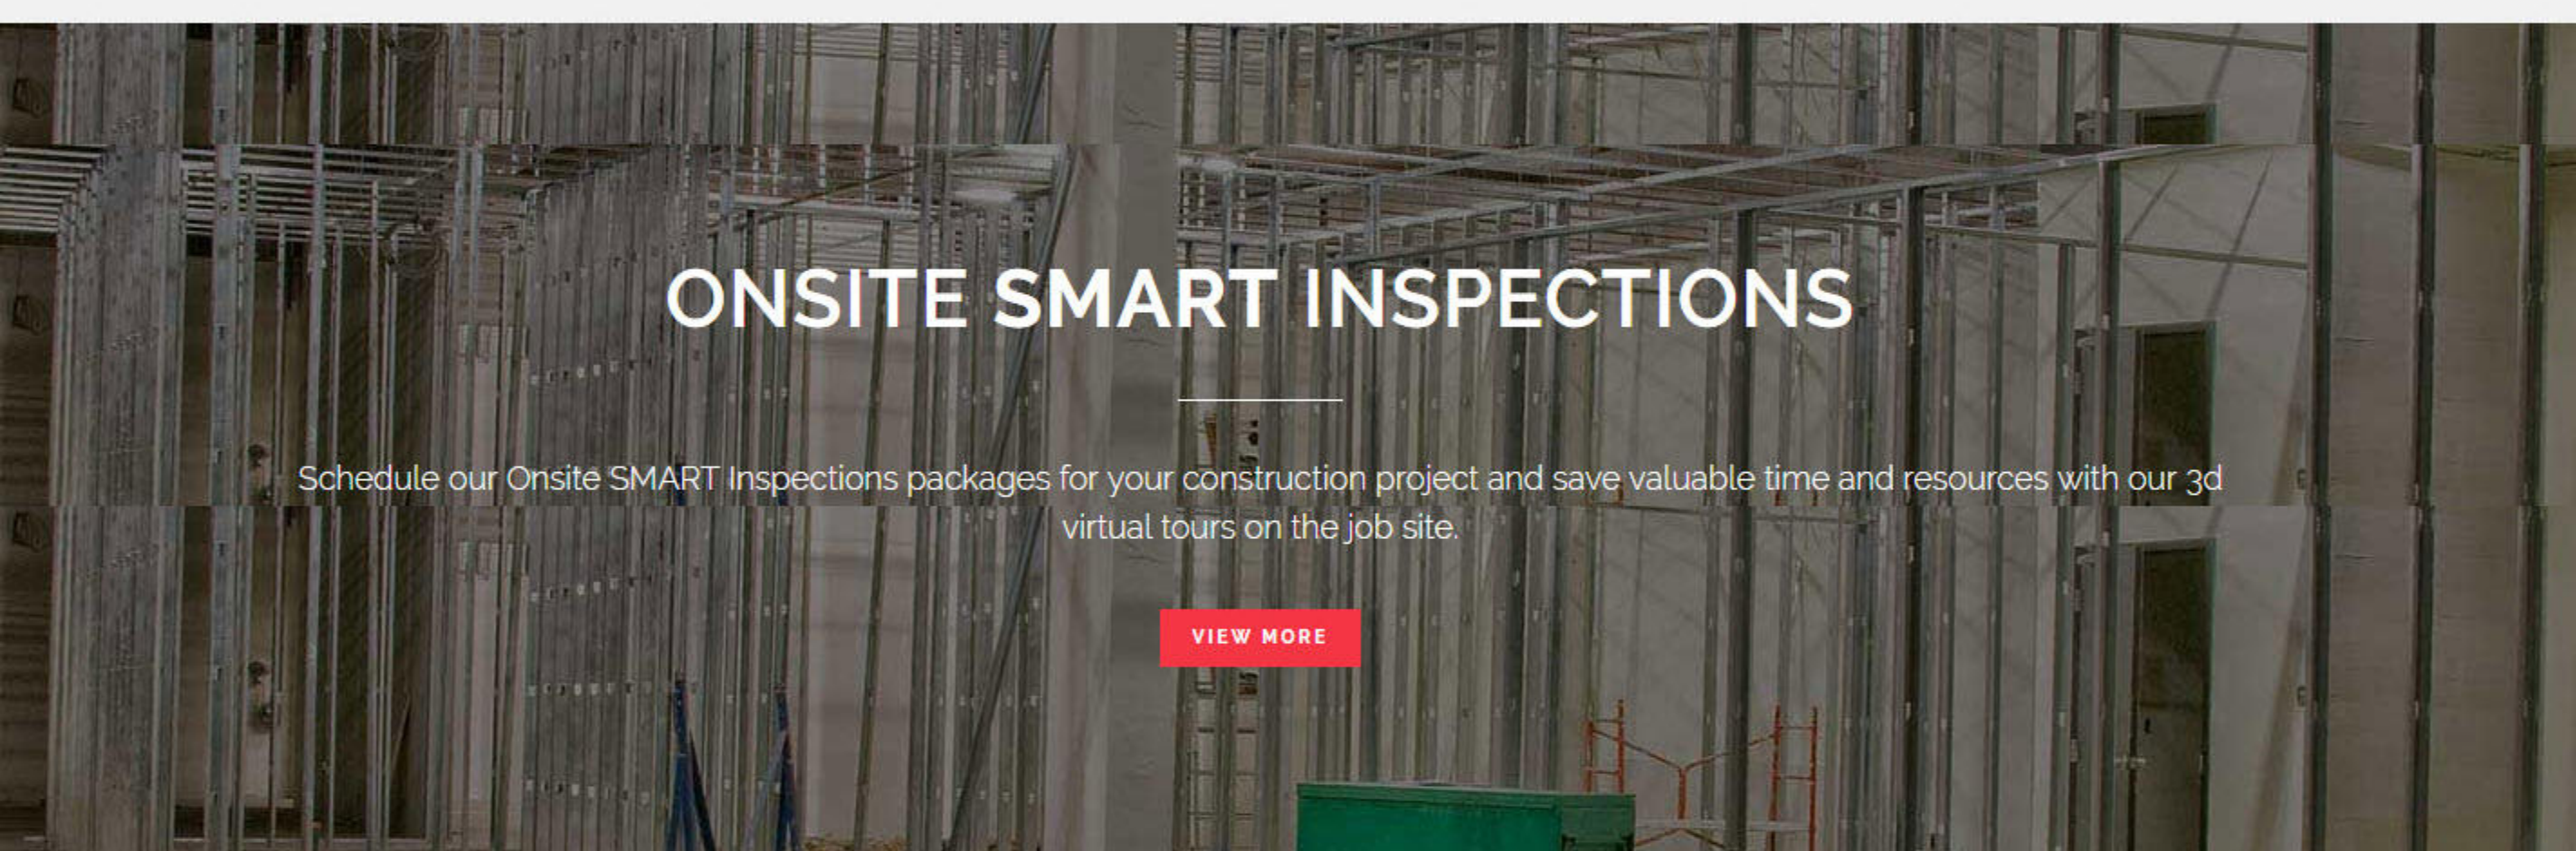

### BE THERE, FROM ANYWHERE.

View multiple properties, only scheduling open houses you are actually interested in visiting in person.

How far is a beach front hotel suite from the beach? Look out the window!

Viewers anywhere in the world can explore 3D spaces from their desktop, mobile device and even virtual reality! The result? A totally immersive experience that literally transports you to a scene. Move naturally through the interior, then zoom out to the dollhouse or floor plan view for a unique perspective of the layout. Patented technology - there's nothing else like it!

VIEW MORE CONTACT US

## ONSITE SMART INSPECTIONS

Schedule our Onsite SMART Inspections packages for your construction project and save valuable time and resources with our 3d virtual tours on the job site.

VIEW MORE

### INSPECT THE JOB SITE, OFF SITE

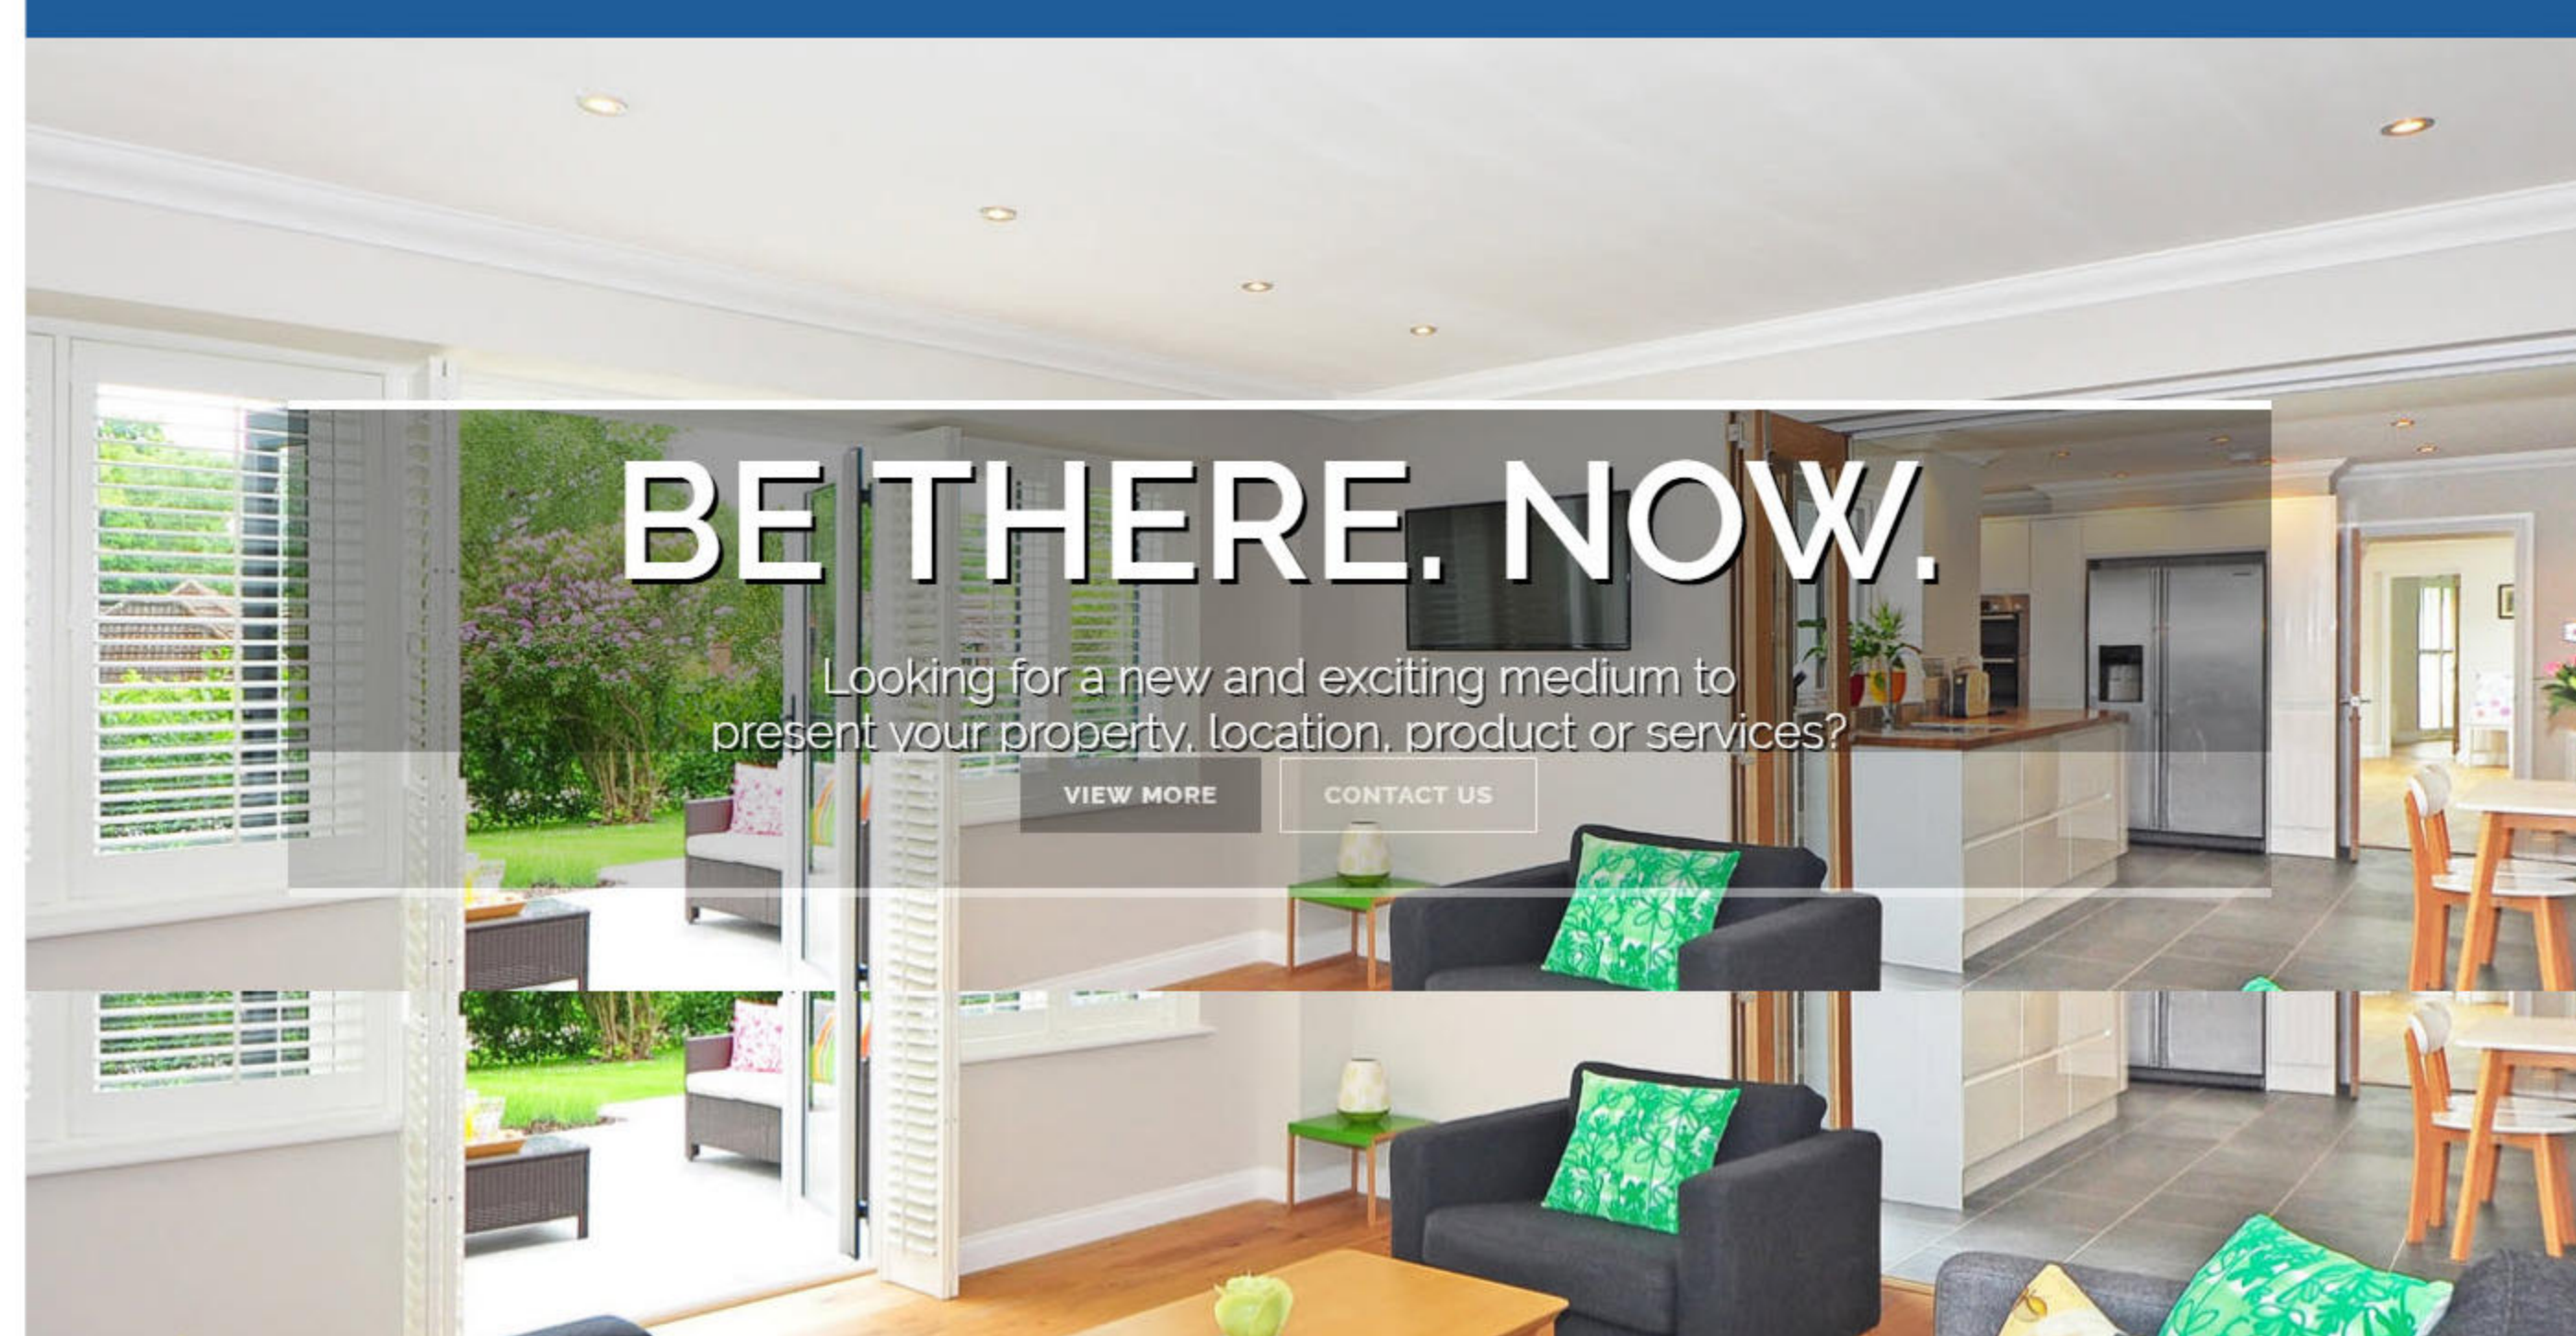

Our High Resolution 3D Virtual Tours allow Construction managers and team members to quickly share visually rich, 3D project updates.

### IMPROVE COLLABORATION

Remote clients & designers can see a project's status and get details for making critical design and purchasing decisions.

### EASY TO SHARE

With a simple link or embed code, your 3D Showcase can be seamlessly included in your Webpages. No downloads or plugins needed.
