USER MANUAL

Safety Warning

Before operating, please read this manual thoroughly, and keep it for future reference. Images shown in this manual are indicative only. There may be differences between the pictures and the actual product.

- The unit must be connected to a grounded outlet.
- The unit must only be repaired in certified centres and by qualified personnel.
- Do not spill liquids on or into the unit.
- Do not place heavy objects on the unit.
- Do not insert objects into the ventilation fans or power sockets.
- If the unit is not to be used for long periods (more than 48 hours), unplug the power cord from the power outlet and store it in an appropriate place.

Battery

Make sure the battery is disposed of or recycled properly after use. Keep the battery away from children and do not throw it into a fire. Beware of the risk of fire or explosion if the battery is replaced with an incorrect type.

Notes for maintenance

The unit can only be repaired in certified centers and by qualified personnel.

Operating Instructions

Structure

Charging VR viewers

1. Open the cover, pull out the supplied power cord and connect it to the trolley's power outlet. Make sure the power outlet is grounded and connect the trolley to the power supply.
2. Pull out the Type-C charging cables and plug them one at a time into their respective ports.
3. Connect the charging cables to the VR viewers, one at a time, and place the VR viewer sets in the appropriate slots.
4. Press the On/Off button to start charging the devices, the switch will light green, then the LED will change color to red if the device is charging and green if the connected devices are all fully charged or if you have no connected devices.

 This symbol, affixed to the product or its packaging, indicates that the product should not be treated with household waste. It should be taken to an electrical and electronic waste collection point for recycling and disposal. Proper disposal of this product helps prevent potentially negative consequences for the environment and human health. Recycling materials helps to conserve our natural resources. For more information about recycling this product, please contact your local municipality, your local waste disposal center, or the store where you purchased the product.
